ACCIDENT TO THE NEW WORLD,-This magnifi-Accident to the New World, This magnificent vessel met with a serious accident on her way up on Saturday night. The New World got up steam for the first time this season, and left New York on Saturday evening with a large load of passengers and freight. Soon after passing Catskill her shaft broke, thus crippling her engines. The Oregon, upon coming up, took her in tow, but left her at Hulson and brought her passengers to this city. The shaft is a massive piece of wrought iron, and, should it be the only damage dore, it will take several days if not weeks to repair it. After discharging her passengers and freight, the Oregon returned to Hudson for the purpose of relieving the New World of her freight.

ARREST OF A BROKER CHARGED WITH CONSTRUC-TIVE LARCENY.—AROM SULPID, a Wall-street broker, was resterderly brought before Justice Welsb on complaint of Mr. Jas H. Mosely, also a broker in Well street, who charged him with constructive grand larceny. It is alleged that on the 25th of April, 1255, the complainant had in his possession as ac-cepted draft on Mesers Coloman & Station for \$2,593 83, due 5 mouths from that time; that Station alled upon him, and said he had a customer for the note, and asked permission to take it, promising to either return the note or bring the cash for it in the course of a few hours. The note was handed him; but to the day neither the money or note has been returned to Mr. Mosely. The Megistrate held the accused to ball to \$5,000 to await examination. ARREST OF A BROKER CHARGED WITH CONSTRUC-

Change of False Preferences.—A complaint was made a short time since before Justice Davidson by Sir. Thomas B. White, produce merchant, doing business at No. 9 Water street, against Leander Craudell, a merchant of Norwich, Change County, N. Y., charging him with laving, some time since, by means of false and fraudulant representations, obtained the signature of Mr. White to two acceptances, amounting to \$3,000. The representations were to the effect that a note which he gave Mr. W. as collatoral security for the payment of the drafts was indused by a highly responsible firm, which representations proved to be false, as the note has not been paid, and Mr. White was obliged to take up the drafts when they became due. A warrant for the arrest of Craudell was issued, and was served upon him in Chenango County by Officer Van Clee for the Second District Police Court, but a haless corpus was obtained, and he was taken out of the out-tody of the officer and brought before a magistrate at Oxford, N. T., who held him to hall in \$4,000 to answer the charge at the Court of General Sessions in this city.

COURT OF OYER AND TERMINER-APRIL 14-Before

Judge Strone.
The People agt. Lewis Baker.
This case, which was tried some months ago and remained undisposed of for want of agreement among the Jury, came up yesterday. The Attorney General, S. B. Cushing, and the District-Attorney, A. Oakey

Hall, appeared for the prosecution, and James T. Brady and Horace F. Clark for the defense.

The District Attorney entered a not, pros. in the case of James Irving and John Morrissey, as the evidence presented on the former trial of Baker rendered their innocence still more probable. He also stated that if no objection was made he would put all those implicated in this efficient rial together.

n this effair on trial together.

The whole day was spent in attempts to get a Jury, and when the panel was exhausted only five Jurymen bad been sworn. Out of five hundred summonses is used nearly one half were excused as exempt from serving, or from some other cause. Mr. Hall stated that, ac-cording to his estimate, about 95 per cent of those who answered to their names had formed an opinion on the

subject.

The following are the names of the five Jurors se

lected:
Alexander Phyfe, broker, No. 11 Wall street; John
M. Croell, manufacturer, No. 404 Broadway; George
S. Mawson, agent, No. 44 Maiden-lane; William S.
Slocum, eating house, No. 198 South street; James
Peterson, confectioner, Canal street, near East
Broadway.

After some conversation between counsel, the Court directed summons to be issued fer a new panel of 500 jurors, returnable on Wednesday morning at 11 o'clock. Baker was in Court, sitting by the side of his counsel, James T. Brady, and looked about as hale and confident as on the former trial. Capt. Rynders was also present during the day, sitting at the left of Baker. The crowd was not as great as on the former The crowd was not as great as on the former

SUPREME COURT—CIRCUIT—Before Judge CLERKE.
IMFORTANT QUESTION UNDER THE GIFY CHARTER.

Vum B. Finch et al agt. The Mayor, &c., of New-York.

The plaintiffs sue as assignees of one Pailip Mable,
who contracted with the Corporation, on the Sist of January,
1824, to build a buildened between Figs. Nos. 20 and 23, on the
North River, at the rate of \$50 per foot.

There were two advertisements of the job, in the common
form—the first of which specified the buildheed to be built as 57
test while, both at top and bottom, but was afterward withdrawn.
The second, under which plaintiff's proposal, with others, was
put up, read, as printed, "a builtheed of feet wide at bottom and 5
feet at top," instead of 45 feet at top, as it should have been wordde. The plaintiff complains that siter having male his contract
on the basis of this advertise ment he was required by the Street
Commissioner to make it 46 feet wider at the top—a change involving serious expense and delay, in consequence of the lateness of the season, to the amount of \$20,000, it is olaimed.

The plaintiff also alleges that, while he was building this builthead, the defendants filled up the slip in its rear, so as to obstreet his work and injure that already completed, an injury
which he estimates at \$17,600.

When the evidence bearing on these allegations was all in,
and the plaintiff rested, a nonsuit was moved on the following
grounds:

Because, by plaintiff's own showing, the contract originally

and the plaintiff rested, a nonsuit was moved on the following grounds:

Because, by plaintiff's own showing, the contract originally entered into and under which payments had been made, was for the construction of a holkhead only five feet wide at the top, in place of 44, as claimed.

That if this axis work was performed with the knowledge and consent of the Street Commissioner, no implicit contract could thereby be raised which would bind the city, since all contracts of this character beyond \$500 must be made in due form, through advertisements, etc., in pursuance of a resolution of the Common Council.

That the second cause of action was liable to a similar objection, or to another equally fatal. For it was either on an implied contract, or in prespace for damages, which would present a case of misjoinder.

prior contract, or in trespace for damages, which would present a case of misjoinder.

This motion was made and argued on Wednesday last. On Thursday morning Jedge Clerke read a written opinion, non-surting the plaintiff; but his counsel plead so caracastly for its withdrawal, because of the probable absence of witnesses, &c. in case of a new trial, that size considerable discussion, amount-ing almost to a re-argument, it was withdrawn and the case is still on. The New Reservoir in the Central Park.

In the matter of the Confirmation of the Report of the Commissioners appeared to Assess the Vains of Lindtaken to form the new Reservoir, Judge Strong delivered an opinion, this morning, confirming the report of the Commissioners. The objections to its confirmation were briefly considered, and disposed of in sole same as follows:

As to the first objection, the act under which this report is nable is repealed by the subsequent act authorizing the charge of the contraction of the new reservoir in the nature of an exception implied in the Contral Park. The Judge observed that it was preper to construct the act authorizing the construction of the new reservoir in the nature of an exception implied in the Contral Park act and the results of the repeals the other, but both are to study if possible. It would follow from this construction that the lands in the New Reservoir act were to be taken for that purpose.

Second objection: That one of the three Commissioners appointed became a non-resident previous te the readering of their report.

If this were so, their action would probably be held void, it

formance of their duties.

But the testimony fails to establish the fact of non-residence—for New York City appears to have been the third referee's place of business, and that is sufficient to show where he resided and to centrol what evidence there is of his dwallings, house being in another district. The third objection, that all three referees slid not sign the report, is answered by the rule that, though all must regether transact the business entrusted to them,

close in another sign the report, is suswered by the rule that, hough all must neether transact the business entrusted to their, as action of two is subtleant.

As to the valuation of projectly, the Judge went into the obsertions, general and special, at some length.

He said that two things must distingtly appear in order to incalcate the correctness of the report in this respect.—First, That the valuation was made on an improper principle; and Second, That it would produce sections hepry to the objections—nother of which was sufficiently shown.

Indge Rosesvelt stated that the Judges sitting were all agreed in the conclusion that the report must be could used, but that some of the law moints havalved were of so much importance as to require a written equinen, which would shortly be drawn up. THE LIQUOR LAW CASES.

In the case of Warren agt, Coleman & Stetson, proprietors of the Aster House, and other cases arising under the Liquor law, Judge Rosesvelt observed that they were now tractically dispersed of by the recent decision of the Court of Appears. Judgment social therefore be entered in accordance with that at Special Term, affirming the unconstitutionality of the law.

124 FORTANT TO HOTEL-KEFFERS.

This was an application for an order of injunction at the instance of James S. Libby and Washington S. Whitney, the well-known projectors of "Loveyey a Rotel," Park Row, saairst Stephen Leveyey and F. McFailon, proprieters of "The Leveyey linese," near the corner of Courland and Greenwhith stream, to perfect the instance from using the name of "Lovey loy" by the way of designating any hotel kept in the City of New York.

It was arread by M. Ein, see, on helpife for

iny" by the way of designating any hotel kept in the City of New York.

It was argued by M. Ely, esq, on behalf of the applicants, that they had pair a large sum for the good will of the establishment and the name; that they had used it many years, and had built up a reputation for their house under that name by their anterprise and it distry, and that they were entitled to be protected in the sujoyment of it. It was also alleged that the house of the defendants was known as well by the name of the "Lovejoy House." The learned central cited the case of Howard act. Hendrick, all Sandford's Supreme Court Reports, in which an injunction on a similar application had been cantel.

On behalf of the defendants. George Cramer Vernam, esq, one or their coursel, contended that this was a case which did not come within the principles applicable to the protection of trademarks: let Because it is decided that the house of the defendants known indiscriminately by the name of the Lovejoy Hunse and Lovejoy's Hotel; all Because the name of one of the defendants being lovejoy. The protection accorded by the law was sub-relimite to the right of the defendants to use their even name. Mr. Vernam showed that the case dict by the come was not analogous, as in that case it appeared the plaining had a special property is the name of Irrig as against the defendants.

The Court teek the case into consideration, and on Satarday.

lefendants.

The Court took the case into consideration, and on Satarday sedered its decision in favor of the defendants, denying the interior.

ASSAULT AND BATTERY,
Francis A. Saitus against Win. E. Smith,
The Defendant is charged with having attacked the Flaintif with a stick and beat him severely, at about 6 %clock in the evening of the 18th of May, 1854, on the corner of Broadway and Fourth street.
A crimical suit has already been instituted in the premises and Smith discharged by Police Justice Clark, on the ground of unsanity; to the suicence of which as well as to the fact of the discharge, that magistrate less ified upon the present trial. There was other evidence to the point of mental decangement, which was the principal defense set up.

as other evidence to the point of themse was the principal defence set up.
Evidence touching the pravious relations of the parties was ded out by the Const.
The jury were instructed: That the question of insanity was question of fact upon which they were to pass; that if they also ded the defendant to have been insane, it was shert duty sender a verdict for the actual damage sustained at his hands aby; if otherwise, they might add what is vulgarly called

"smart money."

In the course of his charge the Judge went into an extended analysis of the nature, species and workings of lunacy. Sealed

| SECOND BOARD | SECO Monday, April 14-P. M.

The principal feature in the Stock market continues to be the movement in Western shares, which are in large demand, and buoyant; more especially Cleveland and Toledo, Chicago and Rock Island, and Michigan Southern. Of the Cleveland and Toledo, the sales were some 7,000 shares, exceeding those of Erie, Reading, Central, and all the home radroads together. After the Second Board sales of this stock were made as high as 837, showing an advance of 1 P cent on the closing price of Saturday. Chicago and Rock Island closed at 931, which is | P cent better. Michigan Southern was 97 bid. Galena 1154. waukee and Mississippi 857, &c. A sale of 200 shares Wisconsin Lake Shore was made at 73, buyer sixty, and 3 \$\psi\$ cent was offered on 1,000 shares for the July dividend. Cleveland, Columbus and Cincinnati fell back to 100. Cleveland and Pittsburgh was firm with sales of 600 shares at 631. Eric at the close sold at 571; Reading, 922; Hudson River, 342; Central, 921. &c. The interest of the street centered on Western shares to the neglect of the fancies, which have heretofore been active. Nicaragua was rather firmer and sold at 13]. Bank stocks are generally well sustained. Park Bank sold at 29, St. Nicholas 961, Corn Exchange 104, Hanover 96. In Railroad Bonds the market is firm but not very active. Illinois Central sold at 87] @ 88, and with privilege at 912. Michigan Southern Sinking Fund at 86, which is better. Terre Haute and Alton 2d at 781, also an improvement. Eric, 1871, 831; 1875, 91; 1883, 921, &c. In State stocks

the transactions were moderate at full prices. The market for Exchange is firm but not yet active. Sterling is 9 294 for best commercial and bankers signatures. A leading house is asking 9 7 cent. Francs are 5.20@5.174.

The Bank Statement shows a continued expansion of loans, of which about \$500,000 appears in the Park Bank, counteracted by a contraction of \$500,000 by the Metropolitan, which during the previous week used a large amount of the funds of the Park. The movement during the week appears to have been quite irregular, many of the banks having contracted while other have expanded. The deposites show nominally about the same as last week, but have in fact slightly increased, notwithstanding that country bank balances are being to some extent drawn down. The actual condition of deposits is as follows, showing an increase of \$315,119: Deposits April 5. \$91,008,403 Deposits April 12. \$91,001,975 Average Coarings. 23,022,750 Average Clearings. 22,781,192 Actual Deposits.... \$67,965,673 Actual Deposits.... \$61,300,783

The specie line shows a decrease of \$755,000, which was expected as the average of last week was a declining one, and there have been no receipts since. The Banks, no doubt, look forward to the disbursement, in June, of \$7,750,000 in gold, on account of the Texas debt, to neutralize any loss they may submit to meantime. But a small portion of this amount, however, will remain here, as more than two thirds of this payment belongs to other cities. The comparison of the present statement with the previous week is:

The movement for the last thirty-six weeks has been as follows:

8, 000, 558 1,541,579 1,779,567 7,841,854 7,891,741 1,791,652 1,771,896 1,841,996 7,5612,706 1,462,907 7,462,706 1,462,807 7,462,80 10,782,099 11,687,299 11,777,771 13,385,250 12,735,059 13,640,437 15,647,637 14,235,329 15,670,736 15,635,874 15,647,645 15,170,346 14,045,034

\$29,610,000. Mr. John Thompson advertises in another column \$165,000 of city and State stocks for sale, to which the

attention of investers is asked.

The Nautilus, arrived at New-Orleans from Rio Grande, had \$64,000 in specie on board. The Fulton Bank has declared a semi-annual divi-

dend of five per cent, payable on the 1st of May. The Cleveland Herald publishes some extracts from the Cemic Almanack in regard to the Cleveland, Columbus and Cincinnati Railroad, which we cannot refrain from printing, although we thereby break through our usual habit of confining ourselves in this department to simple matters of fact. The Herald

eays:

"True, the Cieveland, Columbus and Cincinnati
Company have no favors to ask of Wall street, and it
really matters not a penny in what esteem the stock
stands in that treet, but the attack upon the Compasy by those harpies, aided and assisted by the NewYork Press, is a shameful attack, and is done for the
purpose of speculating out of the fears of the timid
A thorough probing of the recent movementa
in Wall street, we believe would show one of the
blackest schemes of stock-gamblers ever divulged in
the cold, clammy, selfish atmosphere of that sink of blackest schemes of slock-gambiers ever divinged in the cold, clammy, selfish atmosphere of that sink of iniquity. It is well known that the legality of the in-domeneut of Kailroad Bonds by Railroad Companies has been a disputed point since the practice thus to bester up arout was introduced. It is said that En-glish decisions all bear strongly against the legality of such indorsements. To what extent the glish declaious all bear strougly against the legality of such indorsements. To what extent the hyernas of the Wall street menagerie, and the golden pens of their editors ["golden pens" are good!] can depress the Cleveland, Columbus, and Cincumstitock, remains to be seen. Heavy orders are daily going forward from this city for its purchase. \$30,000 were remitted by the first mail after the attack appeared in The Transex, Times, and Herald, and at this enslaught has the effect of restoring to the West what stock the Eastern blacklegs got away from Ohio, a mest declarable end will be attained. The Directors and efficers of the Cleveland, Columbus and Cinciannti Read are able to hold every dollar of the stock, and could buy and sell these Wallstreet brawlers three times a cay.

To which The Sandusky City Register, na Ohio ournal of at least equal respectability with The Cleve-I'md Herald, says:

"That lost flourish is rather "steep, that the Directors and officers of the Cleveland, Columbus and Cincati Railread can buy and sell Wall street operators three times a day, is pretty hard to digest. Wall street is supposed to use about \$50,000,000 per day in ators three times a day, is pretty hard to digest. Wall street is supposed to use about \$50,000,000 per day in its transactions: on what amount do the officers of the Clevelard Road pay taxes, that they can three times a day buy and sell the hyenas! We should advise the Assessor to look after these officers. If Tac Herald can teach the 'buils' and 'bears' anything of right onems, we beg it will 'pitch in.' But if it hopes to use English occasions as a precedent for the usages and laws of Wall street, it is, we fear, sadly do me d to disappointment, for there an indorsement is considered a guaranty, and probably always will be. considered a guaranty, and probably always will be, if it is as officially done as the letter of Mr. Hubby and the certificate of the Directory of the Cleveland, Cincinnati and Columbus Road somed to assume."

The foreign advices per Washington and Cambria have had an unfavorable effect upon the breadstuff market, and holders are pressing lots on their purchasers. The free arrivals from Albany have assisted the downward movement. The lower grades are us re sensibly affected than the better kinds, and show a decline of 37 jc. within two days. State brands are elling at \$6 2 \$6 311; Southern, \$7 2 \$7 50 for common descriptions. Wheat is nominal with no transactions worth reporting. Rye, Barley and Corn are lower. Southern mixed Corn is selling at 60 2624c., with moderate arrivals. Pork is better, mess is selling at \$16 624 2.816 75, and prime \$15 50 2.815 624. Beef is lower. Cut Meats are more plenty and lower. Lard continues heavy and sells at 91 210c. In Wool there is but little doing, but the market is steady. In view of the pending auction sales of Sugar the market is dull and steady. Coffee and Molasses, with fair business, are firm. Teas at private sale are dull. Cotton is firm but quiet, the Cambria's advices not having been received in time to have any effect upon the market.

The foreign news per steamer Cambria had no effect in the street, although it was generally looked upon as favorable. Consols are 921 2921, a trifle better than was reported by the steamer Washington, while Cotton continues steady, and Breadstoffs are still declining. The peace news is more satisfactory than that

by the Washington.

There have been rumors current for several days in the street of a heavy defalcation, but we cannot trace them to any definite source.

The annexed circular, issued in December last by the Directors of the Galena and Chicago Road, has never, we believe, been published. It lays down the policy of the Company, which is to divide only 10 ? cent in cash, whatever may be the earnings of the road, and to expend the remainder of the earnings in the completion of the road, although they have already received all the money they in a previous circulst had stated they should need. This circular appears to contemplate an unlimited expenditure of earnirgs in addition to the amount which, by their own statement, the Company needed for all purposes.

If the arnexed Circular had been issued by the bear clique in this city, it could not have been more adreitly

shaped to suit their purposes:

OFFICE OF THE GALENAAND CHICAGO UNION
RAILEGAD COMPANY, CHICAGO, Dec. 21, 1852.

Size: By the published notices you will perceive that the Directors of this Company have declared a semi-annual cash dividend of 5 4° cest, payable Feb.
1. 1856, at the office of the Company in Chicago.
They have also declared a stock dividend of 12° 4° cett from the surplus captures, payable at the same They have also declared a state divined on the cent from the surplus earnings, payable at the same time and place, in certificates to be issued by the understance, which certificates will be convertible late the capital stock of the Company at the pleasure of the holder, when presented in sums of \$100, and will

be entified to all dividends declared after such conversion.

An examination of the present state of the affairs of the Company and careful estimates of the future wants and income, based upon past experience, have satisfied the Directors that the net earning will yield semi-annual dividends of 5 % cent in cash, and doubties furnish means for the ultimate completion of the roads of the Company as contemplated. The amount of response of net earnings, OVER AND ABOVE 10 % CEST PER ANNUM IN CASH DIVIDENDS, which may be used in the completion of the roads, will be DIVIDED PRO RATA TO THE STOCKHOLDERS ANNUALLY IN THE STOCK OVER COMPANY. If these estimates are safe ones (and the Directors believe them to be so), no further soles of bonds for construction purposes will be necessary, and there is little probability that any more will be issued, except in exchange for some short-timed liabilities which the Executive Committee are authorized to make. This may be considered as the settled policy of the Board, as fixed by their action of the 19th and 20th road.

signed.

In reply to the many inquiries as to the right of the Directors to increase the Capital Stock beyond \$5,000,000, I will also state that the charter of the "Galena and Chicago Union Railroad Company" and amendments thereto, authorize the issue of \$5,000,000, and the charter of the Mississippi and Rock River Junction Railroad Company authorizes the issue of \$1,000,000, with the right to increase the amount to \$2,000,000. By the consolidation of the two Companies, which was perfected nearly a year since, the present Galena and Chicago Union Railroad Company are authorized to issue \$7,200,000 of Eapital Stock.

Very respectfully, your obedient servant.
